### Example of a summary

A couple bought a new house in a town near San Francisco. At first, they thought it was great that it was beside a golf course, but they quickly realized that this was not a good thing. Golf balls that were hit by bad players always landed in their backyard. The situation was so bad that they sued the property developer who sold them the house. Their evidence was thousands of golf balls that had landed in their backyard. They won the legal battle and received a new house that was not next to a golf course.
